INDEX TO VOLUME V—NEW SERIES—1876.

A PAGE

Agriculture—Progress in, by Jas. Atlee, 39; by H. W. Cosby, 51; Retrospect of some theories in, by Dr. D. Stewart..... 54

Agricultural Calendar—Farm work for Jan., 21; February, 56; March, 92; April, 123; May, 161; June, 198; July, 238; Aug. 262; September, 295; October, 327; November, 355; December.....381

Agricultural Colleges—The Maryland, 27, 34, 35, 86, 105, 141, 172, 359; by N. B. Worthington, 300; by C. E. Coffin, 52; the State Board of Education on, 67; Farmer's Convention of Montgomery Co., on the Md., 68; Virginia, report on, 69; Catalogue of Va., '75 and 76, 271; Kansas and Md., 70; in Germany, by Mr. Wering, 78; failures of, by L. A. Hansen, 79; Manual labor at, by L. A. Hansen, 273; by Dr. Minor.....274

American Farmer, New Volume, 1, 26, 52, 253; Complimentary Notices of, 26, 51, 72, 201; Duty of Writing for the, 280; Corresponding Editor for, in the Carolinas, 332, 375; A New Campaign for the.....359

Agricultural Clubs, Societies, &c. (see Farmers' Clubs.)

Agricultural Congress, (National) Meeting of, 203, 299, 329; Mr. Flagg's Address at.....330

Agricultural Education, (see also Education and Colleges) by Dr. E. M. Pendleton, 241; by the Editor, 274; by H. E. of S. C. 333; in Farnce.....373

Agricultural State Fairs, 264; County Fairs.299

Agriculture and Civilization, by Jno. T. Jones.370

Allen, A. B. on the Berkshire Hog.....218, 248

American Nurserymen's Association.....272

Apiary—Beekeeping, 25; Feeding Bees in Spring, 90; Management of, 161; To make Artificial Swarms, 229; To secure Premium Honey, 229; Experience with Bees, 269; Changing Situation of Hives, 294; Care of Bees in Winter, 357, 381; Bee Enemies, 357; A Site for Hives.....361

Asparagus—Cultivation of, by W. F. Massey, 135; Another Mode.....154

Atlee, James, on Progress in Agriculture.... 39

B.

Barley—The English Chevalier.....184

Beef, American, Shipments of, to Europe, 282; Preserving Meats.....312

Bees, (see Apiary.)

Beets—Cultivation of the Sugar.....124, 184

Beans—Culture of Varieties.....197

Brackenridge, W. D.—(see also Floriculture.) Report on Md. Fruits by.....189

Breeding Stock—Value of a Pedigree in....187

Bristow, Mrs.—Sketches of Travels, by, 36; Pictures of New York, by, 204; Centennial Pictures, by.....303, 335, 362, 399

Bryan, O. N.—(see Fisheries.)

Buckwheat—Cultivation of, and Manure for, ...198, 228, 327

C.

Carter, Jno. I., on continued action of Fertilizers, 77; on Orcharding, 94; on Dairying.126

Carrots, Cultivation of.....124

Cattle—(see also Dairy, Live Stock, &c.;) Black Leg in, by Jno. T. Bard, 88; Precocious, 148; to relieve Inflamed Udder in, 158; choking in, 160, 379; Sale of Stricker Jenkins' Jerseys and Sheep, 173; the Guernsey, 382; The Holsteins, 57; by J. Auger, 157; Importation of, Rules for, 128; the best Breed for the Dairy, by W. J. Schofield, 151; to Prevent Abortion in, 158; Garget in, 220; Foot Rot in, 220; Grade Jerseys, by Thos. Fitch, 247; Loss of Cud in Cattle, 251; Ticks on, and Sheep, 254; Cutting and Steaming Feed for, 285; Fattening of, 285; a Useful Invention for Fractures, 331; Choking, Remedy for, by Prof. Law, 340; the Guernsey.....382

Chisolm, R.—On the Guinea Grass, 8; on Trees..... 15

Centennial, The—Stated Displays at, 171; an Arboretum at, 185; Horse and Cattle Shows at, 209, 248, 359, 360; Agriculture at, 217; Fruits at, 226, 231; Harvesting Machines at, 232; Rhododendrons at, 259; Agricultural Products at, 299; by Mrs. Bristor, 303, 335, ...362, 399

Corn—Trenching for Fodder, 4, 216, 255; Cultivation of, for Soiling, 162, 198, 221, 228, 246, 361; Fodder vs. Grass, 179, 222; Preserving Fodder and Roots in Germany, 6, 84; in France, 123, 281; T. T. Gorsuch's Prize Acre of, 26, 49; Jas. Bosley's Prize 5 Acres, 56; Great yield of in Alabama, 50; Ground for, 57, 103; Formula for Compost for, 345, 375; in Georgia, 112; Growing of, on Scientific Principles, by D. Sturtevant, 113, 167, 275; Cultivation of the crop of, 124, 161, 198, 228; for Soiling, 125; Enormous receipts of in Baltimore.....238

Cotton—Raising Cheap, 2; Estimate of crop of 1875, 43; on Planting, by David Dickson, 102; Fertilizers for, 104; Fertilizers for, Formula for Composting, and Experiments in Georgia, 111; the Results of the Crop, and Cultivation of, 168, 376; Condition of the Crop, 302; a Compost for, and Corn.....345

Clover and Plaster as Fertilizers, 9, 177; Sowing of, 56, 92; Raising seed of Clover, 230; Sowing at the South.....276

Constitution of an Agricultural Club, by T. Gorsuch 253

Cranberries—Culture of in Md..... 355

Croft, Tho.—On Draining Lands.....8, 120

Cultivator—The Granger..... 30

Cold Pits.....390

D.

Dairying—Ear marks of Butter Cows, 23; Short-Horns as Milkers, 23; the Statistics of in the United States, 58, 91, 186; Spurry, as Food for Cows, 70; Large Yield of a Cow, 87; on Management of Dairy Cows, by Mr. Hansen, 221; by Mr. White 91; in Pa., 186; Temperature for Butter, and Cheese, 121; on the Management of Dairy Houses, 127; on Dairying, by Prof. E. W. Stewart, 127; Precocity in Cattle for Milk and Butter, 148; Best Breed of Cattle for, by Wm. J. Schofield, 151; Oleomargarine Butter in Baltimore, 171; When Should Cows of a Butter Dairy Calve, 186, 221; Garget in Cows, 220; Foot Rot, 220; Fodder Corn for Milch Cows, in Vermont, 221; Butter Making in France, 240; Value of Beets for Cows, 236, 383;

PAGE

Garget and Hollow Horn in Cows, 247, 376; Grade Jerseys for the Dairy, 247; Experiments in Setting Milk, 283; Philadelphia Gilt-edged Butter, how made, 283; Hints for Calving Time, 286, 379; Stabling Cows the Year Round, 316; Milking Properties of Ayrshires, Short-horns and Jerseys, 328; the Exhaustiveness of, 329; Milk, Analysis of, 329; Making Butter, 329, 383; a Fodder Plant for Dairy Cows, 343; How Cows should go into Winter Quarters, 356; to Maintain a Full Flow of Milk.....356
Daniel, Z. C.—on Improvement in Poultry, ...90, 125
Detmers, Dr.—on Hog Cholera.....339, 377
Dickson, David—on Cotton Planting.....102
Draining—by Tho. Croft, 8, 120; by L. A. Hansen, 56, 147; Time for.....327
Drilling—Accurate Work, by Bickford & Huffman's Drill..... 69
Drill—Value of in Seeding Cereals, by D. Lawrence.....279
Dynamite on the Farm.....375
Deficient Elements in Soils.....395

E.

Education—(see also Agricultural Colleges and Agricultural Education)—Agricultural, in Germany, by E. Wenig, 78; by Dr. E. M. Pendleton, 241; by the Editor, 273; by H. E., 333; by Philo.....342

F.

Fair, A Novel Agricultural.....366
Farmers' Clubs and Societies—The Gunpowder, proceedings of, 11, 26, 49, 55, 56, 84, 210, 238, 266, 268, 296, 305, 392; Potomac Fruit-Growers, 15, 61, 93, 129, 224, 287, 320; Md. State Agricultural Society, 36, 44, 101; Proposed Change of Grounds of, 175, 233, 234; Montgomery Co. (Md.) Farmers' Convention, 45; Sandy Spring Club, 47; Montgomery Club, 48; Enterprise Club, 99; Elmira (N. Y.) Farmers' Club on Grasses, 307; Woodlawn (Fairfax Co., Va.,) 370; Harrisonville, Md.....371
Farm Schools in Europe, by Prof. Kedzie... 3
Farquhar, A. B., An Enterprising Manufacturer.....231
Farming—Thorough Cultivation, by J. Fitz, 6; by S. N., 83; Scientific do., by Prof. Stockbridge, 31; Brains and Methods in, 41; do. by Dr. Sturtevant, 113; Some Causes of Failure in, by S. N., 33; How to Make it Pay, 147; And Grazing, 150; On High Farming, by C. T. Haile, 150; Cheaper Production is Higher Prices, 170; Changes in, 183; on General Farming, by E. O'Donovan, 185; True Theory of, by L. H. McGinnis, 212, 393; Beginners in, 215; Observations and Suggestions in, 282; Science in 342; and the Labor Question..... 75
Farmers—A hint to them to do Their Own Legislating, 201; by Dr. Lee, 230; by Industry They Thrive.....253
Fences—The Vagrant Stock Question, by Col. E. Wilkins, 13; by S. N., 83; To Make Wire, 52, 80; Portable, 171; The Law of, 202; A Grape Fence.....334
Fertilizers—(see also Manures) Clover and Plaster as, 9; For Crop Feeding, by Prof. Stockbridge, 31; For Wheat, by W. Hol-

PAGE

man, 5, 75, 107, 143; Gypsum (plaster) as, by W. H. White, 77; Phosphates as Plant Food, by Prof. Goessman, 32, 41; Testing the Action of, by Jno. I. Carter, 77; Use of, by S. M. Rankin, 85; For Cotton and Tobacco, 104; Errors in Analysis of, by Prof. P. B. Wilson, 109; for Crops in Georgia, 111; For Tobacco, 114; on Use of Concentrated, 114; Even Distribution of, 251; for Fall Use, 300; Red Clay as a, by J. Fitz, 305; Experiments with in France, 313; by Wm. Holman, in Virginia, 334, 366; German Potash Salts, 344; Compost for Cotton and Corn.....345
Ferneries and their Management, by Mr. Meehan..... 64
Feeding Stock.....122
Fisheries in Maryland and Virginia, by O. N. Bryan, 13, 159; Petition on, to Maryland Legislature..... 24
Fitz, J., on Thorough Culture, 6; on Selection of Fruit Trees, 62; on the Detriment to Fruitage by High Culture, 193; on Red Clay as a Fertilizer, 305; on Horticultural Societies.....384
Fodder—(see Corn)—The Butter Plant for, 342; Hungarian Grass and Fodder Corn...361
French Letters on Agriculture, 9, 52, 81, 131, ...148, 183, 216, 254, 281, 312, 342, 378
Floriculture—(see also Horticulture)—Hints for January, by W. D. Brackenridge, 17; for February, 62; for March, 96; for April, 132; for July, 226; for August, 258; for September, 293; October, 323; November, 353; December, 391; Best Light and Dark Roses, 18; A New Dahlia, 18; Tea Roses, 63; Ferneries and their Management, 64; A Beautiful Climbing Plant, 64; Arrangement of Plants in Pots, 64; the Double Scabiosa, 65; Occupation for Amateur Florists, 97, 133; Winter Flowers, by W. F. Massey, 97; the Camellia, by Jas. Pentland and John Feast, 97; Treatment of Roses, 132; Restoring Health to Camellias, 161; Geraniums, Greenhouses, &c., 164; Double Begonias, 165; Rhododendrons and Camellias, by N. F. F., 190; Anthurium Scherzianum, 197; Yucca Filamentosa (with cut) 205, 227; Sulphate of Ammonia for Verbenas, 259; Rhododendrons at the Centennial, 259; the Gladiolus and other Summer Flowering Bulbs, 260; Bedding Plants, by N. F. F., 291; Destroying Insects on Greenhouse Plants, 292; to Destroy the Rose-bug, 302; Roman Hyacinths, 310; the Sweet Potato Vine, 320; Drainage for Pot Plants, 320; Chestnut Hill Views, by W. F. Massey, 324, 388; Hyacinths in the House..389
Fertilizer Manufacturers' National Association.....304
Farms—Work and Labor on, in winter..... 51

G.

Gate, to Make a Good One.....360
Georgia, Farming in, by S. Gregory, 103; Progress of Agriculture in, 111; Crops and Prospects in.....395
Gilmer, Geo. C., Virginia for Immigrants, by, 86; on Saving Orchard-Grass Seed.....183
Giddings, Genl. L., on American Grapes and Wines.....195, 385

PAGE

Goe, Genl. J. S., on Sheep Growing.22, 23, 58, 374
Goessman, Prof., on the Phosphates as Plant-Food.....32, 41
Gorsuch, D., Visit to the Farm of, 333; Report of Inspection Committee on his Farming..268
